This is what makes it a popular choice:

Decentralized

Trading takes place on a global P2P network of users running BCC on their own machines.

Safe

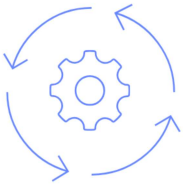
BCC never holds your funds. Deposits held in 2-of-2 multisig wallets encourage safe, successful trades.

Private

Your data is stored locally on-disk, and is never sent to a central server. Every BCC node is a Tor hidden service by default.

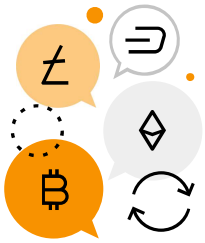
Easy to Use

We've made all this sophistication simple—make your first trade in under 10 minutes!



The BCC DAO

Decentralized governance for a decentralized exchange, built on top of Bitcoin. Learn more here.



The broadest range of crypto.

BCC is a security-first, multi-chain wallet for both mobile & desktop that provides native support and true ownership for more than 125 blockchains and thousands of tokens.

Supported assets

The highest level of trust.

Built with Monetize Vitual Funds, BCC is the most Secure multi-chain wallet available, with millions of active users. Most importantly, no BCC wallet has ever been hacked or otherwise compromised to date.

The most versatile global app.

BCC is Seg-Wit enabled and offers 168 fiat currency representations, readable in 25 languages. All supported assets can be exchanged instantly from within the app via built-in exchanges.
